

CONSTRUCTION UPDATE

Construction is progressing, including foundational work to support the next phase of the project. Current developments include:

- Underground structures for the Kist Lift Station at 40th Avenue are installed. The lift station will become operational in the next phase after sanitary sewer connections are modified, and pumps and controls are in place.
- Traffic transition from the south to the north side of the temporary roadway as crews begin removing asphalt, cutting down the roadway and installing utilities in preparation for the permanent roadway.

Throughout the project, one lane in each direction and a center turn lane will remain open to help keep vehicles moving. The speed will be lowered to 25 mph and there will be an 11-foot width restriction. Please be aware that lane directions and locations will shift as crews continue to work on different sections of the roadway.

Beginning August 1, the minimum fine for speeding in a construction zone will increase from \$80 to \$150. We encourage all drivers to proceed with caution, pay attention to signage and crews, and continue supporting local businesses along “The Strip.”

Please note that weather conditions and ongoing construction activity may cause schedule changes. Thank you for your patience as work continues.
