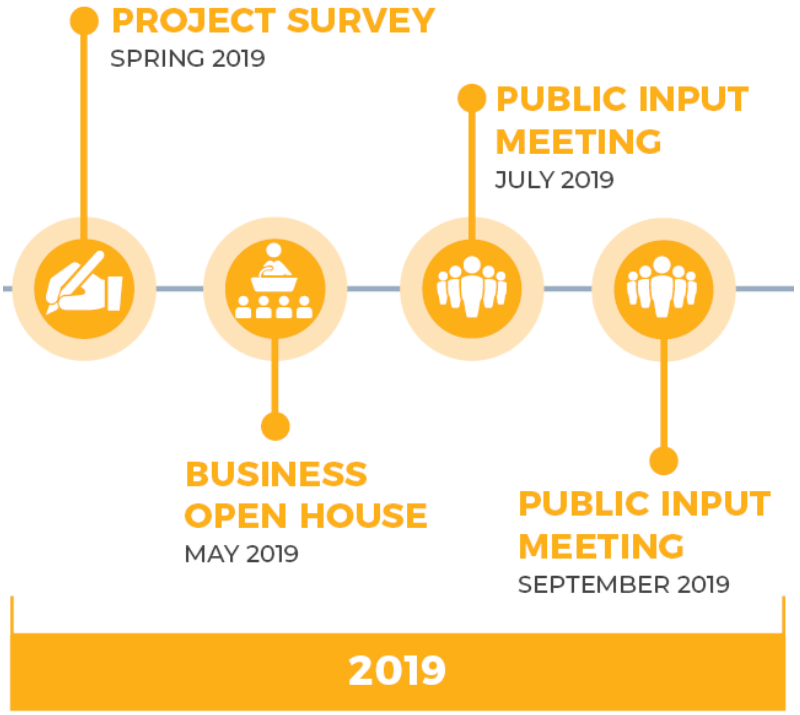
Thank you to the many businesses, landowners, and residents who have been involved in planning for the Memorial Highway Improvements project to date. Here is a quick update of what you can expect in the coming months.

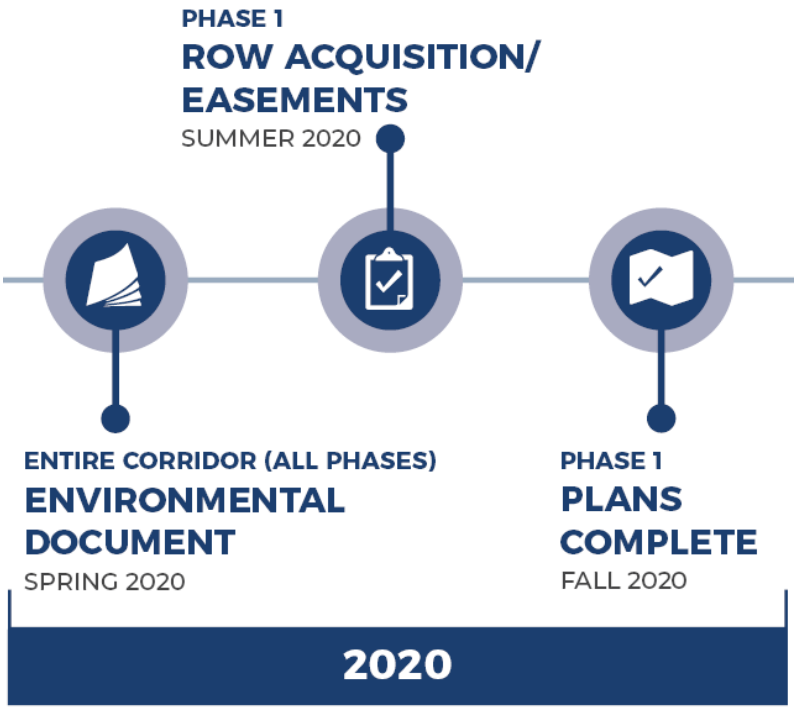
First, let's look back at 2019.



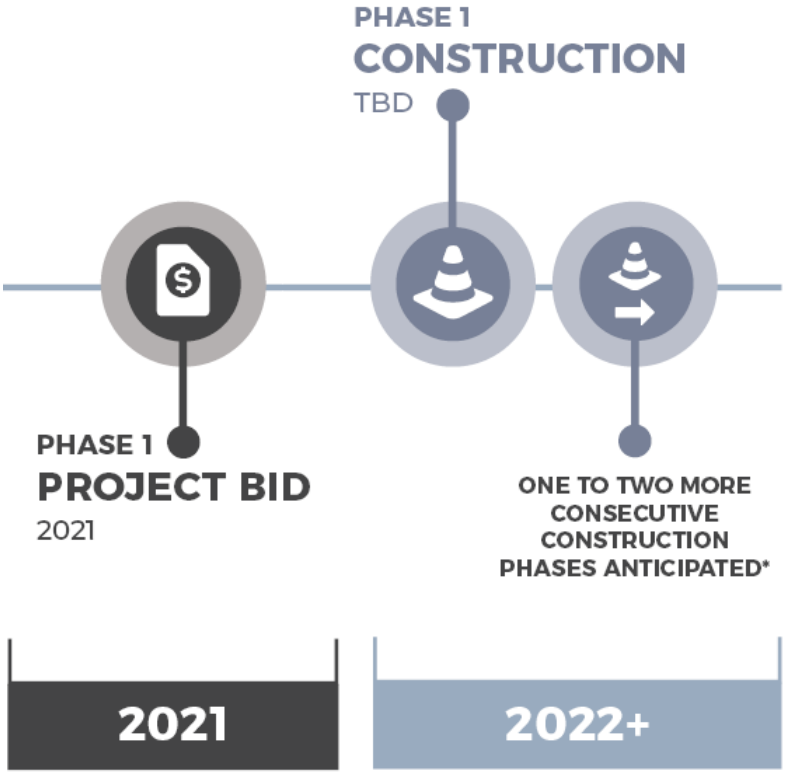
The Memorial Highway reconstruction project is currently scheduled to begin during the 2022 construction season and design of the project continues to progress.

In 2019, project progress was heavily focused on collecting public input. A survey and open house in the spring for the business owners along the corridor provided valuable insight into public thoughts about the project. Two opportunities for public input were offered to engage with the project team and learn more about the overall scope of the project.

Coming in 2020



2020 milestones will include the completion of the environmental document anticipated in the spring, right-of-way acquisition and easements acquired in the summer and Phase 1 plans completed in the fall. Project bids are anticipated in 2021.



The North Dakota Department of Transportation has created a website for the project. Visit *dot.nd.gov/projects/memorialhwy* for more information. To submit comments, email *input@memorialhighwayproject.com*. Periodic updates will also be posted to the *cityofmandan.com* website.
